## Mini Universal MATE-N-LOK Connectors

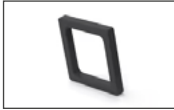

The Mini-Universal MATE-N-LOK connector system brings the reliability and easy assembly expected from the MATE-N-LOK connector family to compact low power and signal applications. These connectors are available in a variety of configurations for wire-to-wire, wire-to-panel, and wire-to-board systems. Key features include polarized housings to help prevent mis-mating, optional splash-proof wire seals, and lance-less contacts to avoid wire entanglement. Find out whether Mini-Universal MATE-N-LOK connectors meet your connection needs by getting samples from this select group of housings, contacts, and accessories.
